

# THE PALLET APP

made by

EPAL<sup>®</sup>

NEW

The EPAL PALLET APP is your digital solution for processing pallets efficiently. The app's user-friendly dashboard and mobile web application allow EPAL pallets, particularly EPAL Euro Pallets QR, to be easily managed and tracked. Scan, track, and manage your EPAL pallets in near real-time, reduce manual entries, and eliminate paper-based processes. Start now and shape the digital future of your logistics processes with the EPAL PALLET APP.

## Two complementary tools

**Web-based dashboard:** Manage locations, users, orders and inventories. The dashboard provides you with a central overview for efficient management of your pallet movements.

**Mobile web app:** Create tracking orders, register EPAL pallets at goods inwards, and book in empty pallets. The mobile web app is user-friendly and allows you to record data quickly and easily on site.

## Optimize your logistics processes with these features:

**TRACKING:** Track your EPAL pallets and goods from start to finish. Combined with the EPAL Euro pallet QR, you and your partners can track every movement in near real-time for maximum transparency.

**ORDER ENTRY:** The mobile web app allows you to create orders for tracking or inventory management. It also makes it easier for you to enter orders at goods inwards and to book in empty pallets.

**INVENTORY MANAGEMENT:** Manage your inventory and reduce manual and paper-based processes with the EPAL PALLET APP. Monitor your EPAL pallet inventory at your locations.

The perfect companion to the  
EPAL Euro pallet QR.

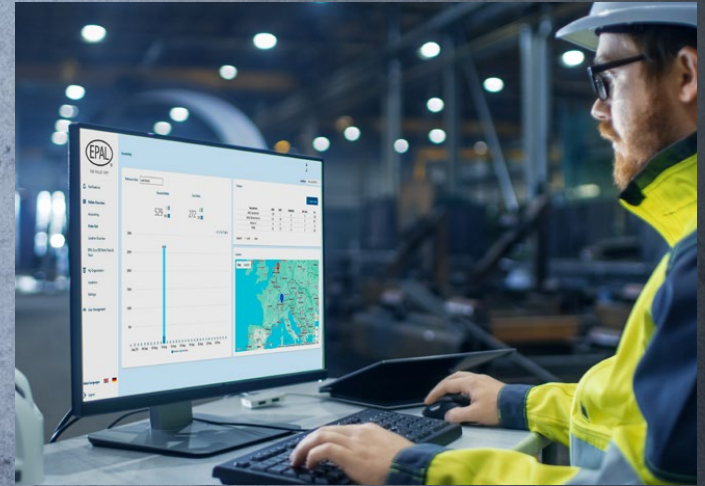

THE OPEN PALLET POOL.

*„The lack of transparency and traceability of pallet movements is a frequent problem in goods and pallet logistics. Entering information manually is inefficient and can lead to the loss of pallets and goods. The EPAL PALLET APP is the quick way for companies to start digitalising their logistics processes, particularly when combined with the EPAL Euro pallet QR.“*

**Jarek Maciążek, Präsident der EPAL**

### Sustainable and efficient (pallet) logistics

The EPAL PALLET APP offers quick, straightforward digitalisation of your pallet logistics. It also improves EPAL pallet inventory management at your companies' locations as well as collaboration with customers and suppliers.

**GREATER EFFICIENCY:** Reduce manual data entry and paper-based processes. The EPAL PALLET APP makes your logistics processes more efficient and less prone to error.

**TRANSPARENCY:** Track pallet movements and inventory in near real-time. Combined with Euro Pallet QR, you have an overview of your pallets and goods at your fingertips.

**SUSTAINABILITY:** Promote the circular economy through efficient pallet management.

**USER-FRIENDLINESS:** Simple and intuitive operation for every user in your company.

## Digital solutions for practical challenges

### Transparent pallet tracking with your partners

Tracking was never easier! The EPAL PALLET APP allows you to track your EPAL Euro pallets QR from collection to delivery at your partner companies in real time. Just scan the QR code, generate a tracking order and then you will know precisely where your goods and pallets are. Using photos as a proof of delivery provides extra security and transparency, minimising losses and increasing efficiency.

#### The benefits to you:

- Real-time transparency in your partner network
- Losses reduced to a minimum due to accurate tracking
- Photos provide digital proof of delivery

Start now: just scan your Euro pallet QR!

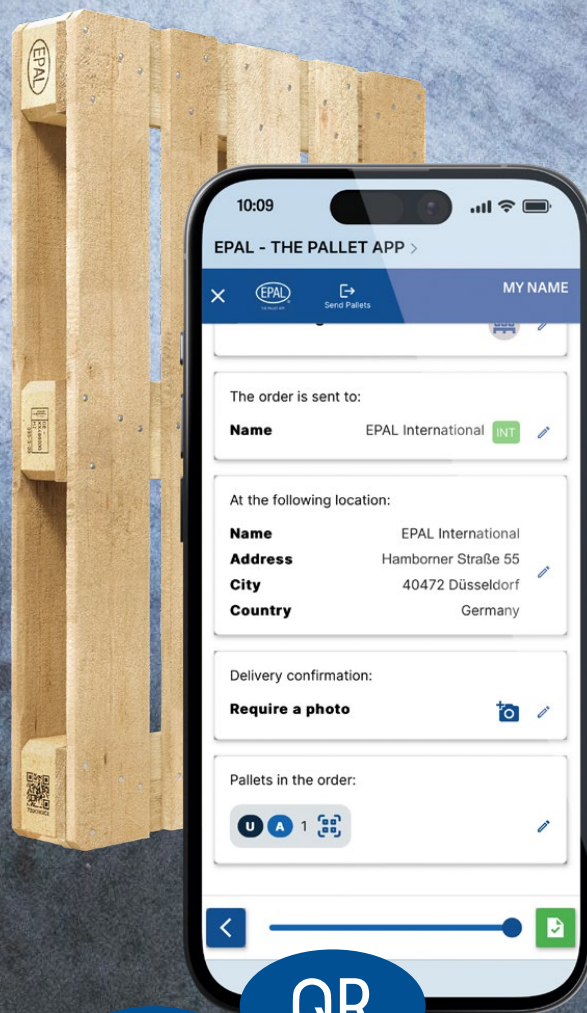

### Track & Trace for internal logistics processes

The EPAL PALLET APP makes your internal pallet movements completely transparent – both in your warehouse and over multiple company locations. Thanks to the EPAL Euro pallet QR and the mobile web app, pallets and therefore also goods can be clearly identified and digitally tracked at any time. You can capture movements by simply scanning the QR code and save this directly in the app. The central dashboard provides you with an overview of your entire inventory and all your sites in real time. This means you can plan appropriately, avoid bottlenecks, and increase the efficiency of your internal logistics.

#### The benefits to you:

- Traceability of pallets and goods within your company
- Real-time inventory transparency across warehouses and locations
- Better planning and optimisation of internal logistics processes

Have the transparency and control of internal logistics at your fingertips with the EPAL PALLET APP!

THE OPEN PALLET POOL.

### Easy, digital empty pallet management

Substantial simplification of your empty pallet management with the EPAL PALLET APP. Capture the number and quality of used EPAL pallets as they arrive directly using the mobile web app. Book pallets in in seconds without errors. You will always have an overview of the number and quality of your EPAL pallets, making inefficient paper-based processes a thing of the past.

### The benefits to you:

- Rapid and easy pallet registration on site
- Digital quality classification of EPAL pallets
- Process pallets more quickly and with fewer errors

Pallet management could not be easier – digital and efficient!

### Simple registration:

1. Scan the QR code on your EPAL Euro pallet QR or go to app. [epal-pallets.org](http://epal-pallets.org) (see QR code below)
2. This will take you to the EPAL PALLET APP.
3. Enter your user account number or register with your current login details.
4. Enter your company locations and invite other users.
5. Generate your first internal tracking orders or pallet bookings immediately.
6. Invite your partners to your network in the EPAL PALLET APP.

Discover how simple and efficient logistics processes can be with the EPAL PALLET APP. Register now and secure your digital benefits.

## EPAL - THE EUROPEAN PALLET ASSOCIATION

As an international association, the European Pallet Association e.V. (EPAL) is responsible for organising the EPAL Euro pallet exchange pool. EPAL Euro pallets are the cornerstone of industrial and retail supply chains in Europe. The EPAL brand stands for quality, safety and sustainability in logistics. There are currently approximately 675 million EPAL Euro pallets and approximately 20 million EPAL Box pallets in circulation making the EPAL Euro pallet exchange pool the biggest open pallet exchange pool in the world.

More than 1,700 EPAL licensees produce and repair EPAL Euro pallets and other EPAL load carriers globally. EPAL awards licences to carefully checked producers and repairers. These undergo continual and independent inspections by external companies (Bureau Veritas, China Certification & Inspection Group, CCIC). Thus, EPAL is able to ensure consistently high quality worldwide for its EPAL pallets and box pallets.

**30+ YEARS**  
**40+ COUNTRIES**  
**1700+ PARTNERS**  
**20+ MIO. BOX PALLETS**  
**675+ MIO. EURO PALLETS**

As a non-profit organisation, EPAL does not pursue any commercial interests. Founded in 1991 as the international association for exchangeable Euro pallets, EPAL is currently active in more than 40 countries through national associations and representatives. The central focus of EPAL's activity is the organisation of the international EPAL Euro pallet exchange pool and the quality assurance of the production and repair of EPAL Euro pallets, EPAL Box pallets, and other EPAL load carriers.

The EPAL Euro pallet exchange pool, with its principles of reuse, exchange, repair and recycling, has been an exemplar for a sustainable circular economy for more than three decades. Wooden EPAL Euro pallets make a significant contribution to protecting the climate. They store CO<sub>2</sub>, prevent waste and improve the carbon footprint of users in industry, retail and logistics through reuse, exchange, repair and recycling.
